

ERRATA, STYLE CORRECTIONS AND REFERENCE UPDATE
TO THE 7th (2006) & LATER PRINTING OF
THE ECONOMICS OF NETWORK INDUSTRIES

by
Oz Shy

Revised, December 28, 2008

Remark:

Some of the corrections in this file are minor style corrections which will not benefit the reader very much. They are brought here for the sake of completeness and in order to remind me (the author) to replace a few pages in subsequent printing of this book.

WEB-PAGE : www.ozshy.com

THIS DRAFT : 7neterrat24.tex 2008/12/28 10:45 3 pages total

Chapter 2: The Hardware Industry

pp.33–34 Tables 2.1 & 2.2: Replace Firm 1 & Firm 2 by Firms A & B

p.38, end of paragraph before Section 2.3.1 begins: Delete the sentences “Finally, we assume...Formally, we let $\beta \geq 4\delta$.”

Chapter 3: The Software Industry

p.73: The condition of Proposition 3.12 should be modified to If $\phi_r < \min \{2\eta^2\theta; \eta^2(\theta + 3)\}$

Chapter 6: Broadcasting

p.139, top 4-line equation, the left column be: $\pi_A(\tau - 2, \tau)$, $\pi_A(\tau - 1, \tau)$, $\pi_A(\tau + 1, \tau)$
and $\pi_A(\tau + 2, \tau)$

Appendix C: Undercut-Proof Equilibria

p.309, Definition C.1: Make it a strong inequality so that: $p_i < p_j - \delta$

Acknowledgements

I wish to thank a large number of students and faculty members for providing me with many comments and corrections. In particular, I am indebted to:
